

Moving narratives in MyPortfolio e-Images group: enhancing the visual literacy of undergraduate urban design students

Use of e-learning resources in MyPortfolio

Summits and Horizons

9th December 2013

The student experience = interaction with activities

- The quality of the experience ...
greater if/when lessons learned impact (positively) on future ones.
when a reflective process has taken place

- Builds on HEA ITDG project
TurningPoint and MyPortfolio

MyPortfolio group ***Urban Design Images***
with *Urban Design in the Web* links
and pages for space categories:

experiential & behavioural qualities

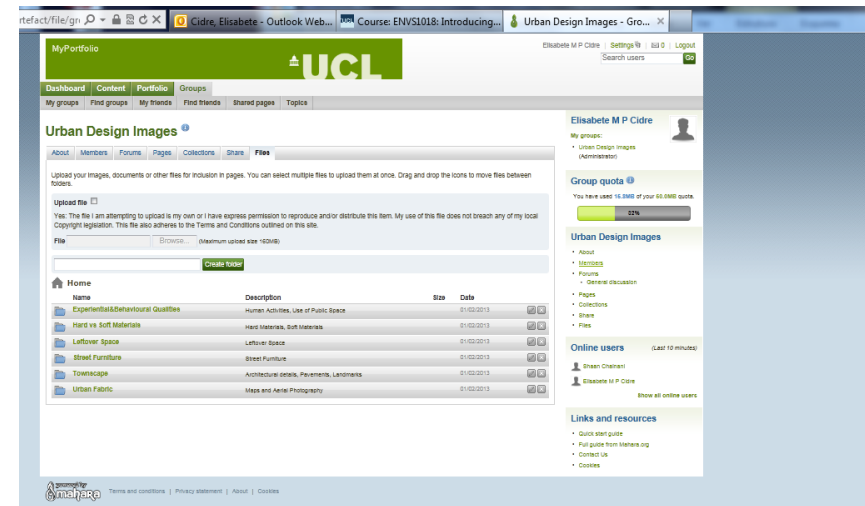

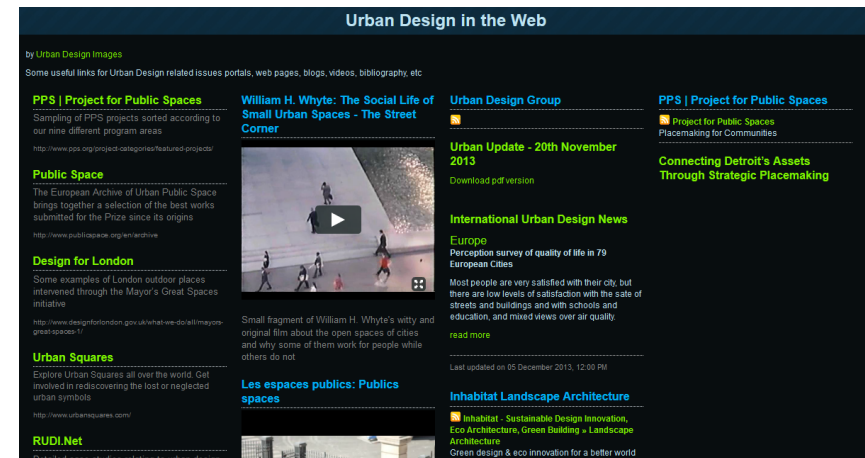

hard vs soft materials

leftover space

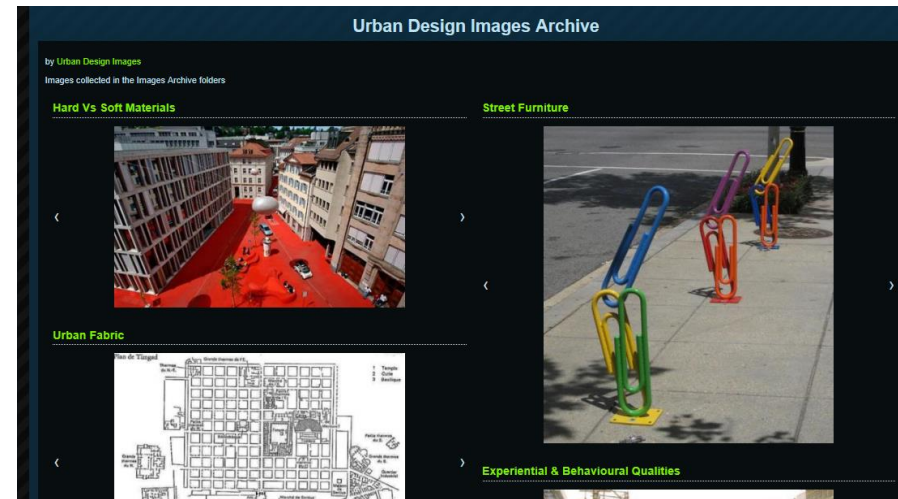

street furniture

townscape

urban fabric

- **experiential & behavioural qualities** is
‘challenging and contentious and more open to subjective interpretation’
- **ELDG project is shaped!**
- beyond the stillness of photography
- providing moving images and sound
- to illustrate monthly variations in 2 sites
- discursive moving narrative
- as referential of the different uses by different users within the same setting.
- to illustrate the influence that intangible elements such as weather changes, sound and smell have on the sensory perception and consequent use of those spaces.
